Dear Глубокоуважаемая chief3g,

We would like to invite your university team composed of eng243 eng123, 22222 22222, 7777 777777, coach coach2 coach1 coach23 to participate in programming workshop Discover Vladivostok 2019 by Moscow Workshops ICPC. The Workshops is organized by Moscow Workshops ICPC (LTD "Russian Code School") and the Far East Federal University.

Dates: July 6-13, 2019

Location: the City of Vladivostok, Russia

Website: <https://discover.it-edu.com/vladivostok/en>

The registration fee varies from 520 to 790 USD per person depending on the date of payment

Discover Vladivostok 2019 Workshop is a 7-days training program designed for the best students in the field of computer science to prove they are the best of the kind or/and to improve their skills. 11 of 12 team-medalists and 51 universities out of 135 that participated in ICPC World Finals 2019 in Porto had attended educational and training programs organized by Moscow Workshops ICPC.

The International Collegiate Programming Contest (ICPC) is the biggest annual multi-tiered programming competition among the universities of the World. It covers 6 continents, 115 countries, 3 233 universities and is known to be the Olympic Games of competitive programming. The International Collegiate Programming Contest is the leading global platform for academic and industrial partners and a universal professional community. It attracts attention to IT industry opportunities and shows possibilities for coming IT Professionals generation which is aimed at perfection.

The official language of the workshop is English. The workshop's program consists of daily contests, problem analysis, lectures and upsolving. Sport and cultural activities will be organized in the evenings and on the leisure day. The participants will learn from the best coaches which are the former medalists and medalists' coaches from the previous ICPC seasons.

For additional information please contact the Moscow Workshops ICPC team (call +7(929)978-75-55, email to workshops@it-edu.com).
